In *Shadow Art*, you are encouraged to trace the shadows of one of the dinosaurs, capturing the fleeting beauty of these ephemeral shapes. Whether you're a seasoned artist or simply looking for a playful way to engage with art, this activity offers a hands-on connection with the fundamental elements of photography and visual art.

Pick up a pencil, choose an object, and let the shadows guide your creativity. As you trace, you'll discover how light transforms the ordinary into the extraordinary, turning simple outlines into intriguing designs. *Shadow Art* is not just an activity; it's an invitation to see the world in a new light, to play with perception, and to express your creativity through the delicate dance of shadows.

## Little Words

Join us in *Little Words*, a collaborative project that invites you to reconnect with your playful side. This activity asks a simple yet profound question: "When was the last time you felt truly playful?"

Reflect on your answer and capture that moment in just a few words. Write your response on one of the small tags provided, then add it to the growing line of tags. As each participant contributes, these *Little Words* weave together a tapestry of memories and moments, forming a collective story of joy, spontaneity, and the essence of play.

Whether your memory is recent or distant, lighthearted or profound, your words will join those of others in creating a shared expression of what it means to be playful. *Little Words* is more than an activity; it's a celebration of the simple, joyful moments that connect us. Add your voice to this evolving project and see how our collective experiences of playfulness come together in a beautiful, communal work of art.
